- (3) When a DMO undertakes a temporary relieving period as an Inspector or Superintendent they continue to receive the additional 112.3572 hours annual leave pro-rata, for up to three (3) months when relieving, so that when they return to their substantive position it does not affect their rotating leave roster.

- (3) The FCCC will be a permanent committee with the responsibility to identify and undertake any initiatives relevant to fire communications operations.
- (4) The FCCC will establish its own Terms of Reference regarding the way the committee will operate. The Terms of Reference will not prevent any initiative from being within scope of the role of the FCCC.
- (5) The parties to this Certified Agreement have agreed to the following initial list of initiatives to be addressed by the FCCC once established:
 - (a) Completion of outstanding matters required of the CA22 Clause 95 review.
 - (b) Addressing the outcomes of the CA22 Clause 95 'Fire Communications Centres Structural Review Report'.
 - (c) Intelligence, forecasting and situational awareness reporting.
 - (d) Matters that affect crewing levels, particularly annual and other leave management processes.
 - (e) Review of local knowledge procedures.
 - (f) Regional employment attraction and retention.
 - (g) Addressing the self-managed time off-console via review of PR3148 'Fatigue Management – Fire Communications Centres'.
- (6) The initiatives listed at 5 (a) to (g) arise from the parties' agreement to address matters identified during discussions prior to certification of this Certified Agreement.

109. Hours of work and rosters

- (1) FCOs and FCSs will perform work according to one of the following rosters:
 - (a) Continuous shift roster:
 - (i) The 10/14 continuous shift roster will remain in place as the recognised shift roster for continuous shift workers;

 - (ii) In most cases, employees on day work will be required to work from Monday to Friday each week, in day shifts of eight (8) hours. Full-time employees on day work will be paid for 40 ordinary hours per week;
 - (iii) Employees on day work will be offered the opportunity to work flexible hours, provided the required hours of the full working week are achieved and operational requirements are met;
 - (iv) Employees on a day work roster will accrue the same annual leave and Z leave as employees on the continuous shift roster;
 - (v) Employees on the day work roster who undertake an overtime shift that forms part of the continuous shift roster will be paid the relevant continuous shift worker overtime rate of double time.

110. Fire Communications Recruit training – span of ordinary hours variation

- (1) The parties to this Certified Agreement acknowledge the value in FCO Recruits experiencing the actual working conditions in a supported learning environment in a Regional Fire Communications Centre.
- (2) To ensure this, this Certified Agreement clause amends clause 15.3(b) of the Award, specifically for the purposes of allowing practical Regional Fire Communications Centre-based training to Recruits (a maximum total of 5 weeks in any recruit course).
- (3) The span of ordinary hours for the 5-week period where the recruit is placed in a Regional Fire Communications Centre is 00:00 – 24:00, where a Recruit can work no more than 10 ordinary hours on any shift on any day (between 06:00 – 20:00) or night (between 17:00 – 08:00).
- (4) During the 5-week period, for 4 of the weeks, Recruits will work either 5 x 8 or 4 x 10 ordinary hours per week. For one (1) of the weeks, the recruits will work a 10/14 roster. On that week, Recruits will work 2 x 10- hour days and 2 x 14-hour nights. The ordinary hours work on any of these shifts remains 10 hours.
- (5) The span of ordinary hours in clause 15.3(b) of the Award continues to apply to the remainder of the Recruit's course.
- (6) Any time an FCO Recruit spends working outside of their maximum of 10 rostered ordinary hours provided for at (3) will be paid at the relevant overtime rate for FCOs working outside their ordinary hours.

111. Fire Communication Director, Fire Communication Executive Managers and Fire Communications Managers hours of work

- (1) Fire Communications managers (Fire Communications Directors, Fire Communications Executive Manager and Fire Communications Managers) will perform work on a day work roster which consists of 40 ordinary hours per week and will continue to receive the 38-hour week allowance as compensation for the 2 additional hours per week they are required to work as ordinary hours.
- (2) An FDC, FCEM or FCMs pattern of ordinary hours will be developed by agreement with their manager, recognising the ordinary hours worked need flexibility with start and finish times to meet work responsibilities.
- (3) When an FCD, FCEM or FCM works in their role outside of their agreed ordinary hours of work, the provisions of the Award clause 18.12 (Overtime and out of hours work - Communications Managers) will apply.

- (4) When an FCD, FCEM or FCM works in another role or on deployment, their hours of work and remuneration are in accordance with clause 143 (Deployment conditions for FCD, FCEM or FCM's) of this Certified Agreement.

112. Fire Communication Centre workload self-management

- (1) Where a Fire Communication Centre is operating with any type of shift where there are ordinary hours rostered between 22:00 – 06:00, the provisions of this clause are to apply.
- (2) FCOs and FCSs rostered to work in a Fire Communication Centre between the hours of 22:00 – 06:00, are able to self-manage their workload.
- (3) FCS or FCO self-management of workload must include consideration of:

 - (b) ongoing and emergent workload of other Fire Communication Centres, and
 - (c) can include self-managed time off-console.
- (4) Self-management of workload cannot be pre-planned, and must be considered at the commencement of, and then during, each shift where work is being performed between 22:00 – 06:00.
- (5) An individual's workload self-management must not result in any reduction in:
 - (a) completion of pre-planned work to be completed during a shift where work is being performed between 22:00 – 06:00, or
 - (b) any reduction in ongoing or emergent service delivery obligations at any Fire Communication Centre during any period where workload self-management is occurring.

113. Debiting of annual leave

- (1) In relation to annual leave, the parties agree that debiting is to remain as per current practices for the life of this Certified Agreement.

114. Z leave – accrual and debiting

- (1) All full-time FCOs and FCSs who work according to the continuous shift roster are entitled to Z leave.
- (2) Temporary FCOs and FCSs are entitled to Z leave if they are remunerated for an average of 80 hours per fortnight (as applies to permanent full-time employees) rather than according to the actual hours worked in any week.
- (3) Part-time FCOs and FCSs are entitled to pro rata Z leave in accordance with clause 127 of this Certified Agreement.
- (4) Z leave accrues at a rate of two (2) hours per week and is debited on a 'time for time' basis (e.g., 10 hours for a day shift and 14 hours for a night shift).
- (5) An employee's Z leave accrual should not surpass 104 hours at any time. Where an employee accrues excessive Z leave (more than 104 hours), the following steps will be taken by QFD:
 - (a) In the first instance, QFD will consult with the employee regarding a suitable available time in the near future to take the excess Z leave;
 - (b) If no agreement can be reached during consultation, QFD may direct the employee to take a portion of their excess Z leave with two (2) weeks' notice.
- (6) Employees should provide at least two (2) weeks' notice in any application to access Z leave. QFD will not unreasonably refuse to grant an application for Z leave if circumstances prevent the employee from being able to provide two (2) weeks' notice.
- (7) QFD will not unreasonably refuse an application for Z leave if it can be reasonably accommodated within the relevant Fire Communications Centre roster.

- (8) Employees will retain the ability to access single days off as required.
- (9) If an employee is taking any leave period that combines annual leave and Z leave, and the leave period includes day shifts and night shifts, Z leave must be used for all night shifts in the intended leave period before it can be used for any day shifts in the leave period.

115. Night shift allowance

- (1) The 15% night shift allowance will be paid in accordance with the formula:

116. Weekend shift allowance

- (1) The weekend shift allowance will be paid in accordance with the following formula:

 - (ii) $\text{Percentage of week} = 8.5714/40 = 21.43\% \text{ of base rate.}$

117. 38-hour week allowance

- (1) The 38-hour week was introduced by way of the payment of an allowance known as the 38-hour week allowance. The 38-hour week allowance is paid in lieu of reducing ordinary working hours from 40 to 38.
- (2) The allowance is paid fortnightly and is calculated as follows:
 - (a) The employee's fortnightly rate of pay $\div 76 \times 4 = 38 \text{ hour week allowance.}$
 *Where the fortnightly rate of pay is equivalent to the base rate, weekend penalty and night shift penalty.
- (3) The 38-hour week allowance is payable on all forms of leave.

118. 38-hour week allowance superannuated

- (1) QFD will provide a contribution at the approved government rate of the employee's 38-hour week allowance to the employee's nominated superannuation accumulation account.
- (2) The contribution arrangements will comply with superannuation arrangements prescribed in the *Superannuation (State Public Sector) Act 1990* (and associated Deed, Notice and Regulation).

119. Averaged standardised wage rates (Fire Communication Officers and Supervisors)

- (1) All FCOs and FCSs receive an averaged standardised wage each fortnight based on the requirements of the 10/14 continuous shift roster, which necessitates employees to work a fixed variation of the number of hours per fortnight, including a combination of nights and weekends, where the variation in hours worked is balanced out across each 8-week cycle of the roster.

120. Meal allowances for Fire Communications Centre employees

- (1) Meal break provisions for Fire Communications Centre employees are contained in the Award.
- (2) Where an employee is unable to take, or is recalled to duty before the completion of, a meal break they shall be paid a meal allowance in accordance with Directive 02/18. Such allowance is to be adjusted from time to time in accordance with State Wage Case decisions of the Queensland Industrial Relations Commission.

- (2) Maintaining pay point for subsequent periods of higher duties:
 - (a) Where an employee has moved to the next pay point as a result of extended higher duties, such pay point will continue to apply for all subsequent periods of higher duties until such time as there is a break of 12 months in the performance of higher duties.

126. Temporary employment

- (1) When an employee is engaged on a temporary basis, the duration of the temporary contract shall be extended to include any relevant leave accrual to allow the employee to take the relevant leave period prior to the temporary contract ceasing.
- (2) Upon an employee's request, the relevant leave accrual may be paid out at the end of the temporary contract as an alternative to extending the duration of the contract.

127. Part-time employment conditions

- (1) A part-time employee is an employee who:
 - (a) is engaged to work a regular pattern of ordinary hours each fortnight which are less than the ordinary hours (i.e. 80 hours per fortnight average over an 8 week/320 hour roster) worked by an equivalent full-time employee; and
 - (b) receives, on a pro rata basis, the same salary and conditions of employment to those of an equivalent full-time employee who performs the same kind of work.
- (2) The regular pattern of ordinary hours over the course of each 8-week roster cycle shall by default be 50% of the full-time regular pattern of work for a part-time employee. However, an employee and their manager may mutually agree to a regular pattern of ordinary hours over the course of each 8 week roster cycle of 25% of the full-time regular pattern of work or 75% of the full-time regular pattern of work, or any other arrangement to accommodate an employee's request for flexibility or the operational needs of the relevant Fire Communications Centre.
- (3) For the purposes of calculations in this clause, the following shall be used as descriptors for the percentages indicated:

 - (b) 50% = Two shifts per tour, made up of one day and one night per tour.
 - (c) 75% = Three shifts per tour.

- (5) A part-time employee shall be aligned to a shift on the continuous shift roster unless mutually agreed otherwise.
- (6) Prior to commencement of any part-time arrangement, an employee will enter into a written agreement with QFD which states the employee's percentage (%) of full-time regular pattern of work and outlines the agreed regular pattern of ordinary hours to be worked, including the shift they shall be aligned to, as negotiated between the employee and their manager with consideration of the needs of both the relevant Fire Communications Centre and the employee, including the availability of any regular and systematic work. Part-time arrangements shall be reviewed every 6 months.
- (7) A part-time employee shall be provided with a roster prescribing their agreed pattern of ordinary hours over the 8-week roster cycle, and the roster shall be published in advance with reasonable notice and in accordance with the Fire Communications Centre Roster Principles.

- (14) A part-time employee may work additional ordinary hours outside of their regular pattern of ordinary hours up to and including full-time equivalent (80) hours. The additional ordinary hours worked are also to be taken into account in the pro rata calculation of all entitlements.
- (15) Where more than 24 hours' notice is provided and a part-time employee works additional hours, all hours up to full-time equivalent (80) hours shall be paid at their ordinary rate. However, if additional hours become available which will result in less than 24 hours' notice being provided to an employee to fill the shift, normal shift replacement/call-back provisions shall apply in accordance with the Roster Principles.
- (16) All additional hours worked by a part-time employee before or after their rostered day or night shift starting or finishing times, and/or over full-time equivalent (80) hours shall be considered overtime and paid at the appropriate overtime rate prescribed in clause 18.3 of the Award.
- (17) Where additional hours are available, these hours will be offered to part-time employees in accordance with the relevant shift replacement/call-back provisions prescribed in the roster principles. Part-time employees who have worked 80 or more hours in a fortnight shall be provided with the same access to overtime as full-time employees.
- (18) A part-time employee shall be paid a single time penalty when rostered off on a public holiday on the following proportionate basis:

- (2) Clause (1) does not apply to the ad hoc provision of general information, guidance and advice.

131. Paid travel time for mandatory and promotion related training

- (1) Employees (including instructors and trainers) who are required to travel to or from mandatory or promotion related training that is approved by QFD will be paid travel time.
- (2) Where an employee spends their own time travelling to or from mandatory or promotion related training, the excess travel time will be paid at the ordinary rate of single time:
 - (a) travel time is calculated to the nearest quarter of an hour, based on the period of time which would reasonably have been taken by the most practicable direct route using approved means of transport, or
 - (b) in the case of an unavoidable delay during the journey, the time actually involved.
- (3) Mandatory and promotion related training includes:
 - (a) any training required to attain or maintain skills and/or qualifications associated with any role, stream or specialisation, and
 - (b) all approved training that is associated with an employee's professional development or attempted progression within QFD ranks.
- (4) Excess travel time is the additional time an employee spends travelling to and from mandatory and promotion related training. It is calculated from when an employee commences their journey (e.g. from their home or work location) and ends when they reach their final destination (e.g. accommodation or training venue), less the time the employee would usually spend travelling between their residence and their work location (the time in excess of their usual travelling time).
- (5) QFD recognises that travel to mandatory or promotion related training should occur within ordinary rostered hours where possible, and that the total work time and travel time should not exceed the maximum ordinary hours for that day.
- (6) In making arrangements for travel, the parties will be mindful of their respective obligations regarding health and safety and ensure a minimum 10-hour break between shifts, exclusive of travel time is preserved.

141. RFSQ Professional Development Framework

- (1) Within six (6) months following certification of the Certified Agreement, a review of the RFSQ Professional Development Framework will be undertaken to identify what was developed, what is still required, and the overarching needs of the various cohorts to develop a clear gap analysis.
- (2) Within the period of six (6) to twelve (12) months following certification of the Certified Agreement, an implementation plan and timeframe will be developed. Where possible, additional packages may be developed during this time to address the identified gaps, or alternative interim development options explored to allow the implementation to proceed. This period may also be used to develop a program that will allow for the new packages to be developed. Parties acknowledge this may take more than six (6) months to complete but efforts will be made to expedite the implementation plan in consultation with the parties.
- (3) The remaining life of the Certified Agreement will be utilised for implementation of the agreed plan.
- (4) A review of achievements/program will be conducted in the six (6) months prior to the nominal expiry of this Certified Agreement.

PART 10 – DEPLOYMENT AND EXTRA ORDINARY DUTY HOURS (EODH) CONDITIONS FOR OPERATIONAL SENIOR OFFICERS, BUILDING APPROVAL OFFICERS, FIRE COMMUNICATIONS DIRECTOR, FIRE COMMUNICATIONS EXECUTIVE MANAGER AND FIRE COMMUNICATIONS MANAGERS

142. Extra Ordinary Duty Hours (EODH)

- (1) EODH arrangements provided for in this Certified Agreement apply during pre-deployment or deployment of an OSO, BAO, FCD, FCEM or FCM to a location to assist with a significant incident.
- (2) Activation of EODH can occur without a formal disaster declaration being made.
- (3) Approval for activation of the EODH arrangements provided for in this Certified Agreement will occur at the Assistant Commissioner level.
- (4) The definition of ‘extra ordinary duty hours’ is work performed above and beyond normal on call duties by an OSO, BAO, FCD, FCEM or FCM in response to particular emergency response circumstances.
- (5) Examples include (but are not limited to):
 - (a) 24/7 operations beyond regional capacity;
 - (b) natural disasters such as floods, cyclone, earthquakes;
 - (c) state emergencies;
 - (d) intrastate/interstate/international deployments;
 - (e) taskforces;
 - (f) major bushfire incidents;
 - (g) state incident management team responsibilities; and
 - (h) major events requiring QFD support.
- (6) An OSO, BAO, FCD, FCEM or FCM engaged in extra ordinary duty hours will be paid as follows:
 - (a) Shift payments – employees assigned EODH will be paid 14 hours ordinary time for each shift they are assigned to.

- (b) If employees are assigned to EODH on a day on which they would normally be required to attend work, they will be paid for hours in addition to their regular daily hours to result in 14 hours of ordinary time pay for each day they are required to perform such duties.
- (c) In the case where the deployment falls on a gazetted public holiday, when the employee is not required to attend work, then 14 hours ordinary time will be paid in addition to normal pay.
- (d) Employees called back from annual leave or long service leave for EODH will have the option of being paid the 14 hours of ordinary time each day or having their leave recredited and being paid the balance of daily hours in accordance with (b).
- (e) Daily deployment allowance (when not living in the field). Employees who are required to be away from home overnight due to the nature of the deployment will be paid the applicable allowances for travelling, in accordance with the Award, the Domestic Travelling and Relieving Expenses and International Travelling, Relieving and Living Expenses Directives.
- (f) Meals, travel and accommodation will be provided by QFD whilst deployed. Where this is impractical, the provisions of the relevant government Directive will apply. The provision of a quick snack, a ration pack or a piece of fruit is not classed as a meal for the purpose of claiming an allowance.
- (g) Refer to clause 36 for Living in the Field Allowance provisions.
- (7) Employees that these conditions apply to shall be allowed 24 hours clear of duty upon returning home, or four days (4) from an extended deployment of 21 days or more, regardless of the roster and providing that they returned home immediately after the conclusion of the deployment.
- (8) Upon approval, EODH conditions prevail over any other lesser entitlements including when EODH duties are assigned to on call employees.

PART 11 – DEPLOYMENT CONDITIONS FOR RURAL FIRE OPERATIONAL OFFICERS (RFOOs)

143. Deployment conditions

- (1) Deployment is when officers are sent to locations to assist with a critical incident that may be of natural or man-made cause. These deployments may occur within a region, intrastate, interstate or internationally.
- (2) Examples of incidents include (but are not limited to):
 - (a) 24/7 operations beyond regional capacity;
 - (b) natural disasters such as floods, cyclone, earthquakes;
 - (c) state emergencies;
 - (d) taskforces;
 - (e) major bushfire incidents;
 - (f) state incident management team responsibilities; and
 - (g) major events requiring QFD support.
- (3) When an officer is deployed to an intrastate, interstate or international incident the provisions contained in this clause shall apply to the exclusion of any other provisions contained in this Certified Agreement or the Award.
- (4) Refer to clause 36 for Living in the Field Allowance provisions.
- (5) On call and incidental allowance,
 - (a) Where an employee on deployment is instructed to be available on call outside ordinary or rostered working hours, such employee shall be paid, in addition to their ordinary salary, an allowance based

upon the employee's hourly rate or the hourly rate of the Station Officer 1 pay point 1, whichever is the higher, and in accordance with the following scale:

- (b) where the employee is on call throughout the whole of a rostered day off or public holiday - 95% of one hour's pay in respect of such instances;
 - (c) where an employee is on call during the night only of a rostered day off or public holiday - 60% of one hour's pay per night; and
 - (d) where an employee is on call on any other night - 47.5% of one hour's pay per night.
 - (e) For the purposes of this clause a "night" shall be deemed to consist of those hours falling between 17:00 and 08:00 or mainly between such hours.
- (6) Any overtime payable shall be in addition to the on call allowance.
 - (7) All meals, travel and accommodation will be supplied by QFD, or if such arrangements are not supplied, then officers can claim expenses as per the relevant Directive.
 - (8) Employees can claim an overnight incidental expense for each night of the deployment (refer to the relevant Directive).
 - (9) Transfers between stations to cover leave blocks or other situations requiring staff to be transferred to fulfil staffing requirements would not constitute deployment under these provisions.
 - (10) The deployment tour of duty generally ranges from five (5) to seven (7) days duration, including:
 - (a) deployment (1 day);
 - (b) shifts in field plus rest and recline (3 to 5 days); and
 - (c) demobilisation (1 day).
 - (11) Employees that these conditions apply to shall be allowed 24 hours clear of duty upon returning home, or four (4) days from an extended deployment of 21 days or more, regardless of the roster and providing that they returned home immediately after the conclusion of the deployment.

144. Rostering arrangements

- (1) Incident Controllers are to ensure they attempt to maximise the most effective use of officers whilst on deployment.
- (2) The parties agree the planned rostered hours of work as per the four-week cycle or eight-week cycle are at ordinary time.
- (3) Any approved additional hours over and above planned cycle ordinary hours will be paid at the overtime rate. Whilst on deployment employees should not be accruing additional managed hours in their roster cycle.
- (4) Employees on intrastate deployment must have a minimum of a ten (10) hour break between shifts. Officers on interstate or international deployment must be given a minimum break of eight (8) hours between shifts, however every attempt will be made to provide a break of ten (10) hours.
- (5) Where minimum breaks are not provided the employee will be remunerated at the applicable overtime rates until such time as the required break period is provided.

- (1) For clarity, actual rates of pay may have been increased by a State Wage Case Decision as per clause 8(6).
- (2) Time is expressed at column two of the above table as the number of years an employee is to spend at each pay point within each of the classifications, prior to progression to the next pay point.
- (3) The exception is the highest pay point in each classification, where the employee remains until being appointed to the next classification, and as such, the time period is not applicable (N/A).
- (4) To be clear, an employee can advance from one classification to the next regardless of the amount of time at any pay point, if the relevant classification progression criteria have been met.

Schedule 4 – Deployment Conditions for Firefighters, Station Officers, Fire Communications Officers and Fire Communication Supervisors

1. Deployment conditions

- (1) Deployment is when employees are sent to locations to assist with a critical incident that may be of natural or man-made cause. These deployments may occur within a region, intrastate, interstate or internationally.
- (2) The declaration of a deployment will be made by the Premier, Commissioner, Deputy Commissioner or State Fire Commander at the request of the relevant Assistant Commissioner.
- (3) Examples of incidents include (but are not limited to):
 - (a) 24/7 operations beyond regional capacity;
 - (b) natural disasters such as floods, cyclone, earthquakes;
 - (c) state emergencies;
 - (d) taskforces;
 - (e) major wildfire incidents;
 - (f) state incident management team responsibilities; and
 - (g) major events requiring QFD support.
- (4) When an officer is deployed to an intrastate, interstate or international incident the provisions contained in this Schedule shall apply to the exclusion of any other provisions contained in this Certified Agreement or the Award.
- (5) Refer to clause 36 for Living In the Field Allowance provisions.
- (6) On call allowance:
 - (a) Where an employee on deployment is instructed to be available on call outside ordinary or rostered working hours, such employee shall be paid, in addition to their ordinary salary, an allowance based upon the employee's hourly rate or the hourly rate of the Station Officer 1 pay point 1, whichever is the higher, and in accordance with the following scale:
 - (i) where the employee is on call throughout the whole of a rostered day off or public holiday - 95% of one hour's pay in respect of such instances;
 - (ii) where an employee is on call during the night only of a rostered day off or public holiday - 60% of one hour's pay per night; and
 - (iii) where an employee is on call on any other night - 47.5% of one hour's pay per night.
 - (b) For the purposes of this clause a "night" shall be deemed to consist of those hours falling between 17:00 and 08:00 or mainly between such hours.
 - (c) Any overtime payable shall be in addition to the on call allowance.
- (7) Officers can claim an overnight incidental expense for each night of the deployment (refer to the relevant Directive).
- (8) Transfers between stations to cover leave blocks or other situations requiring staff to be transferred to fulfil staffing requirements would not constitute deployment under these provisions.
- (9) The deployment tour of duty generally ranges from five (5) to seven (7) days duration, including:
 - (a) deployment (1 day);
 - (b) shifts in field plus rest and recline (3 to 5 days); and

- (c) demobilisation (1 day).
- (10) All meals, travel and accommodation will be supplied by QFD, or if such arrangements are not supplied, then officers can claim expenses as per the relevant Directive.
- (11) Officers that these conditions apply to shall be allowed 24 hours clear of duty upon returning home, or four (4) days from an extended deployment of 21 days or more, regardless of the roster and providing that they returned home immediately after the conclusion of the deployment.
- (12) Travel and deployment:
 - (a) When an employee is deployed, there is usually a requirement to travel to and from a deployment location.
 - (b) Time spent travelling will be paid at single time up to a maximum of 14 hours on each occasion, unless it is an international deployment, where all travel time will be paid at single time.
 - (c) If time spent travelling is less than 14 hours, then actual travel time is to be claimed.
 - (d) Travel days are to be noted on timesheets in the Comments section.
- (13) Travel to the actual deployment location is often broken by attending a pre-deployment location to prepare equipment for travel (for example the QFD State Disaster Centre) or to return equipment at the conclusion of a deployment.
 - (a) When this occurs, and an employee undertakes work preparing, packing, equipment or otherwise, for travel with them to or from the actual deployment location, including the transportation of deployment equipment, the travel time is taken to have ceased and the actual deployment (work time) is taken to have commenced.
 - (b) On other occasions, an employee may travel from home to an airport and travel to or from the deployment location, without doing any work during that period. On this occasion, the entire period travelling is taken to have been travel time and is paid accordingly.
- (14) Hours of work and payment when deployed:
 - (a) When an employee is deployed, the roster they would ordinarily work outside of a deployment (their normal roster, e.g. projected 10/14 for shift workers) is taken to continue to apply for the purposes of calculating the payment of wages.
 - (b) See (18) for examples of when overtime is to be claimed.
 - (c) Therefore, whilst the actual roster worked during deployment is developed as per the deployment circumstances (commonly 12-hour shifts) the rate of pay for deployments is determined by the employee's normal roster (as described above).
 - (d) Officers deployed are to ensure the deployment rostered hours are noted on their timesheets.
 - (e) Incident controllers must ensure all officers on intrastate deployment have a minimum of a ten (10) hour break between shifts. Officers on interstate deployment must be given a minimum break of eight (8) hours between shifts, however every attempt will be made to provide a break of ten (10) hours.
 - (f) In determining the relevant rate of pay the following principles should apply:
 - (i) Any hours worked on a day that an employee would have ordinarily worked would be paid at single time up to the total amount of ordinary hours they would have ordinarily worked on that day;
 - (ii) Any hours worked on a day that an employee would not have ordinarily worked would be paid at the applicable overtime rates; and
 - (iii) Any hours worked on a day an employee would have ordinarily worked in excess of the total amount of ordinary hours they would have ordinarily worked on that day would be paid at the applicable overtime rates.

- (g) If the actual hours worked by an employee on a day that they would have ordinarily worked, are less than the hours they would have ordinarily worked there shall be:
 - (i) No negative hours recorded; and
 - (ii) No requirement to work the difference in hours; and
 - (iii) No reduction in pay.
- (h) Employees recalled from annual leave shall be paid at overtime rates.
 - (i) Day work officers who are deployed and placed on a shift roster will be paid overtime at the shift rates (i.e., double time).
- (15) Public holidays:
 - (a) When an employee performs work on a public holiday whilst on deployment, their normal public holiday provisions apply (the public holiday provisions relating to their projected roster).
 - (b) Therefore, the normal public holiday penalty rates apply to all ordinary hours worked whilst on deployment and the normal public holiday overtime rates apply to any overtime worked whilst on deployment.
 - (c) Day workers who work on a public holiday which is a normal working day are to claim the ordinary hours at the public holiday penalty and then any hours over their normal hours are paid at the overtime rate on a public holiday penalty.
 - (d) For example, when deployed, a day worker normally works a Monday but it is a public holiday, they are paid double time and a half (i.e. time + time and a half) for the hours they would usually work and overtime on a public holiday for any excess hours.
 - (e) Ordinary hours and overtime are determined in accordance with the principles outlined at (10).
- (16) Extending deployments:
 - (a) When an employee's deployment has ended and QFD advises the employee that there may be a requirement for them to be deployed again (either due to circumstances of the first deployment or because of a subsequent event), employees are to be either placed onto the subsequent deployment roster immediately, and provided with a new deployment roster, or they are to be returned to their normal employment location and be deployed from there, if required.
 - (b) Employees are not to be stood down.
- (17) Rostering arrangements:
 - (a) Incident controllers and roster officers are to ensure they attempt to maximise the most effective use of officers whilst on deployment. For example, where possible, ensure officers are rostered to work on days they would normally be rostered to work and rostered off on days they would normally be rostered off.
- (18) The following examples of the overlay of a 'normal' roster onto a deployment roster are indicative only. Each employee's 'normal' roster must be laid over the deployment roster to determine payment for deployment hours of work:
 - (a) Examples relevant to continuous shift workers:

Schedule 5 – Rotating leave roster

1. General principles

- (1) The rotating leave roster has been designed to bring about a standard system for the rostering of continuous shift workers and 7-day station shift workers. It satisfies the requirement for a 40-hour week by averaging the hours worked over the entire spread of the roster and enabling the taking of accrued leave.
- (2) At the date of certification, the rotating leave roster is in effect for the following categories of employees:
 - (a) all Firefighters and Station Officers on the continuous shift roster, with the exception of those employed in the Mount Isa employment location, and
 - (b) Firefighters and Station Officers on the 7-day station roster.
- (3) This schedule governs the operation of the rotating leave roster.

2. Entitlement

- (1) For every full year of employment, employees on the rotating leave roster will be entitled to 312.3572 hours of recreational leave, which is made up of the following:
 - (a) Annual leave (200 hours):
Continuous shift workers are entitled to 5 weeks of annual leave per year under the Award.
 - (b) Accrued leave (104.3572 hours):
Employees work an average of 84 hours per fortnight and are remunerated for 80 hours at the applicable rate of pay. The additional four (4) hours per fortnight accumulates as accrued leave to be taken according to the rotating leave roster. Accrued leave accounts for the adjusting factor of the rotating leave roster. The total accrued leave per annum is calculated as follows:

4 hours (per fortnight)	x	26.0893 (fortnights per year)	=	104.3572 hours
----------------------------	---	----------------------------------	---	-------------------
 - (c) Additional leave (8 hours):
The additional leave of eight hours makes up for a deficiency in the calculations of the rotating leave roster cycle, when converted over a calendar year. Employees are entitled to this additional leave in lieu of the usual penalty rates on the King's Birthday public holiday.
- (2) Leave is accounted for in hours, calculated to the fourth decimal point.
- (3) The balance of an employee's annual leave, accrued leave and additional leave is displayed as a combined figure on their payslip. This figure is provided under the heading of 'Annual Leave'.

3. Length of leave blocks

- (1) Employees at a station will be divided as equally as possible into 7 holiday groups, with each group taking their leave in blocks on a rotational basis.
- (2) The length of the leave blocks will differ depending on the length of the full cycle of the rotating leave roster. There are two separate rotating leave rosters currently in operation. The first has a full cycle length of 35 tours, and the second has a full cycle length of 21 tours.
- (3) Any changes to the configuration of leave blocks in any region may only be made by agreement with the QPFU and the affected members.

4. Accrual and debiting of leave (35-tour rotating leave roster)

- (1) The 35-tour rotating leave roster spans 35 tours, which equates to 280 days or 40 weeks.

- (2) Over the course of the full cycle of the rotating leave roster, each employee will work for 30 tours and take 5 tours of leave.
- (3) Over a full cycle of the rotating leave roster (280 days), employees will accrue 239.4524 hours of leave, in accordance with the below calculation:

$$\frac{312.3572 \text{ hours}}{\text{(total leave entitlement per year)}} \times \frac{280 \text{ days}}{\text{(roster cycle)}} = 239.4524 \text{ hours}$$

365.25 days
(one year)

- (4) The total accrual of 239.4524 hours is consumed by the leave period of 240 hours within each roster cycle. The deficiency of 0.5476 hours (or 32.8 minutes) is accounted upon each employee's leave records as an increasing debit for each roster cycle completed.
- (5) Leave will accrue at a rate of 11.9726 hours per fortnight.
- (6) When an employee accesses leave according to the rotating leave roster, their leave balance is debited at the rate of 48 hours per tour. Both the annual leave and the accrued leave components are debited during this period.
- (7) Employees can be rostered to leave groups that may place them into credit or debit of up to sixty hours. This is to facilitate the equal distribution of new employees into the existing holiday groups.

5. Accrual and debiting of leave (21-tour rotating leave roster)

- (1) The 21-tour rotating leave roster spans 21 tours, which equates to 168 days or 24 weeks.
- (2) Over the course of the full cycle of the rotating leave roster, each employee will work for 18 tours and take 3 tours of leave.
- (3) Over a full cycle of the rotating leave roster (168 days), employees will accrue 143.6715 hours of leave, in accordance with the below calculation:

$$\frac{312.3572 \text{ hours}}{\text{(total leave entitlement per year)}} \times \frac{168 \text{ days}}{\text{(roster cycle)}} = 143.6715 \text{ hours}$$

365.25 days
(one year)

- (4) The total accrual of 143.6715 hours is consumed by the leave period within each cycle of 168 hours. The deficiency of 0.3285 hours (or 19.71 minutes) is accounted upon each employee's leave records as an increasing debit for each roster cycle completed.
- (5) Leave will accrue at a rate of 11.9726 hours per fortnight.
- (6) When an employee accesses leave according to the rotating leave roster, their leave balance is debited at the rate of 48 hours per tour. Both the annual leave and the accrued leave components are debited during this period.

6. Exchange of leave blocks

- (1) Employees in different holiday groups may exchange all or part of their leave blocks on a mutually agreed basis.

7. Transfers and temporary relocations

- (1) The roster office will monitor the duty hours of employees who transfer or temporarily relocate to another shift or station to ensure that they do not exceed the 336 hours in their existing duty cycle.
- (2) The roster office should use the "eight-week plot" proofing tool to ensure that any transferring or temporarily relocating employees do not exceed the duty hour count. The eight-week plot begins on the week that the first 'A Shift' day shift falls on a Monday and runs for 7 tours, or 8 weeks.

8. Accessing leave outside of the rotating shift roster

- (1) Employees may access their annual leave outside of the rotating leave roster, when agreed by QFD.
- (2) Employees are encouraged to utilise the peer-to-peer shift exchange and organisational shift exchange procedures to take individual days or tours of leave outside of their roster, as required.
- (3) When an employee is authorised to access their own annual leave outside of the rotating shift roster, their leave balance is debited according to the projected roster.
